ICE FACTORY FORCED "TO GO THE LIMIT."

The extra heat of the past few days has caused a big demand for ice, and the local factory has not only used up their entire daily output in supplying the demand, but also exhausted the large surplus usually on hand in the cold storage. Tuesday, the company found themselves unable to make all the morning deliveries and many customers were forced to wait until afternoon, while out-of-town orders had to be cut down considerably.

The local plant has a daily capacity of fifteen tons, but this falls below the demand and they were forced to buy a car of fifteen tons yesterday to take care of their trade. In addition to the immediate vicinity, the Hickman factory supplies Moscow, Cayce, Jordan, Woodland Mills, Tiptonville, and many other small places in this section.

CARD OF THANKS.

We want to thank our many friends and neighbors for their kindness and sympathy during the illness and death of our dear little Mildred. May the blessings of God be on each of them in our prayer.—Tom Bone and wife.

It is expected that Congress will adjourn on September 9.

The Democratic campaign in Indiana will be opened at Fort Wayne August 17. It is expected that United States Senator Ollie M. James, of Kentucky, will be among the speakers.

Fire of an unknown origin destroyed two saw mills of the Lucas Lumber & Lumber Company's plant at Paducah, Friday at 12:30 o'clock, doing a total damage of about \$12,000, fully covered by insurance.

The Manufacturer's Association of New Jersey, is asking that business men use their influence with senators and congressmen to secure an amendment to a revenue bill carrying a tax of eight per cent on all war munitions, which bill is now pending in Congress.

The telegram explains that gun cotton, in which is used a great deal of cotton, is to be taxed, and that the tax will ruin the cotton industry and paralyze the south again, and make necessary another "buy a bale" campaign.

News Snapshots Of the Week

An explosion of ammunition consigned to the allies at Black Tom, N. J., rocked two states; damage done in New York city, Brooklyn, Ellis Island, Liberty Island and other places for miles around from the concussion and flying shrapnel brought the loss up to \$20,000,000; only six lives were lost, however. A serious strike tied up many car lines in New York city and threatened the whole transit system. The French and English offensive slackened, while the Russians, capturing Brody, threatened Kovel, Lemberg and other important places. The submarine Deutschland started her dash for home. Despite strong efforts to save him, Roger Casement, Irish revolutionist, was hanged in England for high treason. Hughes scores the Wilson administration as he is officially notified of the Republican nomination for president. The purchase of the Danish West Indies for \$25,000,000 came up in the senate.

LEVEE WORK NOW UP TO RIVER COMMISSION.

The Mississippi River Commission met in St. Louis yesterday for the purpose of considering the river improvement program for the ensuing year. A matter of momentous interest to the lower end of Fulton county is what the Commission will do in regard to an appropriation for building a loop at mile 4 on the Reelfoot line, a short distance below Hickman. This project will cost around \$65,000, with about \$25,000 of it subscribed by the landowners. Unless the government puts up the \$40,000—the work cannot be done. This, however, will be recommended by Maj. Mackham—and his recommendations are rarely turned down. Another question will be that of labor, which is very scarce at this time. We understand the Ogelsby Construction Co., engaged in a big contract on the opposite side of the river, is having a hard time securing sufficient labor, although paying from \$2 a day up.

It is very essential to the agricultural interests of the lower end of the county that mile 4 be repaired at once, and it is to be hoped the work will be done before another high water.

The Kentucky Court of Appeals decided to continue in office the Paducah officials appointed by Governor Stanley.

Light showers Tuesday brought cooler weather. Monday the mercury hung around the 100 mark and the heat was unusually oppressive.

The Menace, an anti-Catholic paper published at Aurora, Mo., was dynamited last week. Various unsuccessful attempts have been made to exclude it from the U. S. mail privileges.

RESTING ON HIS ARMS

HERE'S A HOT ONE.

The wife of a western hardware dealer answered her door bell and found a peddler on the front porch.

"He was selling the 'greatest potato-parer ever invented,' and he gave a demonstration that convinced her at once, and she handed over the quarter."

When the husband came home, she showed him her bargain, and told him what she paid for it. Imagine her consternation when he said:

"I have a gross of these down in the store, and I sell them for 10 cents—when I find a purchaser."

The woman always has the last word, and hers was to the point: "Then for goodness sake, why don't you let people know what you have for sale?"

Moral: Advertise to your home town folks in your home town paper—then your own wife won't ever "get stung."

Russell Johnson and wife left Saturday on the boat to make the round trip to Memphis and St. Louis.

N. R. Holcombe, Ira Green, Misses Marie and Homer Green leave today in the former's car to spend the week end with Miss Ruby Fleming, of Wickliffe, and Miss Edith Hill, of Cairo.

Mrs. F. T. Randle entertained Friday afternoon from 4 to 6 in honor of her sister, Mrs. Ross Cheshire. The home was beautifully decorated in sunflowers and golden glow. Book was the diversion of the afternoon and punch served during the games. At the close a salad course was served. Those present were: Messdames W. B. Amberg, K. A. Mitchell, A. E. Kennedy, A. S. Birnbaum, A. E. Owen, H. L. Amberg, James McPheeters, R. G. Stone, Nannie Kingman, F. M. Maddox, Jessie Dillon, Guy Hale, T. R. Powell, Misses Sarah and Julia Douglass, Louise Atwood and Marie Brevard. Out of town guest: Mrs. T. A. Holcombe, of Greenville, Miss.

SAVED THE COFFIN.

A bunch of old frame buildings on lower Lake street, at Fulton, were destroyed by fire Saturday morning. The Leader says:

"About the only thing saved out of the fire was a coffin. It was nicely lined inside but on examination it was found to be empty. If it had ever had an occupant it was gone. Not even a spirit was visible. Yet the colored population imagined all kinds of things about this mysterious coffin and shied as they passed it. No undertaking establishment had ever been conducted about the premises and why this coffin was produced at this crucial time is beyond the comprehension of those who viewed it. It remained out in the street in front of the ruins during the day."

Clarence Reid left Monday to visit Joe Cantillon at Minneapolis.

W. B. Amberg and wife left Saturday to visit friends at Memphis.

Mr. and Mrs. Leibetter have returned home from their southern trip.

Mrs. Birnbaum, of Louisville, is visiting her son, A. S. Birnbaum, and wife.

Prather Saunders, of Columbia, Mo., is visiting his father, Prof. J. H. Saunders.

Robert, the little son of Harvey Newton and wife of West Hickman, died Friday of dysentery. The baby was one year and four months of age. Burial occurred at Brownsville Tuesday.

Upon hearing that a socialist speaker had insulted the American flag a crowd of business men, of Iowa, Kan., pursued the man into a drug store where he went to telephone for police protection. Here they made him take off his hat to the stars and stripes and declare his love for it. Policemen waited until the ceremonies were over before interfering.

POSEY NAMES FIRE FIGHTING COMPANY.

Fire Chief B. W. Posey has selected a temporary volunteer fire company of eight men, as follows:

Lee Dunn, Ernest Redmond, Fred Warren, Ben Nearin, J. E. Mitchum, Algie S. Curry, Everett Stone and J. P. Harris.

The selection was made with a view to getting able-bodied young men and men who live at various parts of town, which in case of fire in any section, will insure the prompt reporting of at least four of the crew. They will be drilled in the various tasks assigned to each by Mr. Posey, and a few false alarms will be turned in for practice purposes.

The city fathers, we understand have agreed to pay the boys at the rate of \$2 per hour each for every fire they fight. Should their services be required longer than an hour, additional remuneration will be allowed. False alarms responded to will be paid for at the rate of \$1 each.

Col. C. L. Walker and Councilman A. O. Caruthers have returned from a trip to Nashville, where they were in consultation with N. C. & St. L. Ry. officials regarding the West Hickman levee. It may be safe to say these gentlemen were given a small grain of encouragement, but if we are to have a levee, its a foregone conclusion that we, who are not interested, must wake up and do something. It will require something more tangible than mere talk on the part of Hickman's business men; whether they be located in West Hickman or the other sections. Any man who can see beyond the rim of his glasses is bound to know there is more at stake than merely keeping the water out of tenant houses and taking care of food refugees. No fairer or more liberal proposition will ever be put up to us than we've had during the good year of 1916, immediately following our third lesson in overflows, and we could well have afforded to meet the city's obligations with a public subscription, if this was the last report. A few thousand dollars is a small item compared with big benefits and a city's future; especially when property values hang upon that particular thing, together with an increase or decrease in business in general. But we let the opportunity slip. That same old spirit of selfishness, disregard, procrastination, lack of interest, tightwadness, non-co-operation, short-sightedness, no push—all of these, which have of late saturated and permeated the social and business fabric, are responsible for failure thus far. Of course, YOU are not guilty of any of these shortcomings; but, the other fellow, blame his pesky hide, ought to wake up and take an interest in the public good. He is thinking too much of his own selfish ends. Sure, he is willing to lock the barn now, after the horse is gone. Wonder if he will be interested now in getting a "piece of a loaf," since the proposition is up to build a part of the levee as originally planned? or will he sit idly by and watch it fall through?

County and railroad authorities have gotten together in the matter of providing a better outlet for the drain which enters West Hickman under what is known as "corporation bridge." This is a foul polluted stream, and should have had attention long ago. Its course will be straightened and kept open.

The Kentucky State Association of Elks will hold their annual meeting in Paducah on August 22, 23 and 24. Paducah is making big preparations for the entertainment of the visitors. A number of representatives of the Hickman lodge will attend.

"A SAFE PLACE TO TRADE"

COTTON PRICES SOAR. MAY GO TO 20 CENTS.

Cotton prices for the past two weeks have advanced rapidly, until 1917 quotations have passed the 15-cent level. This is by far the best price for several years. The situation before traders seems to be briefly this: indications point toward needs of the world for another year amounting to some 15,000,000 bales to say nothing of exhausted European stocks and the added needs of the central powers should peace come before another crop year is ended. On the other hand, indicated production, according to the census bureau, report is bare 14,000,000 bales, including linters, and this promise is daily growing less by reason of unfavorable climate conditions in the belt. Very clearly a shortage of supplies is indicated from this condition and the trade is just now engaged in solving the problem of the value of a pound of cotton under such circumstances. The changing outlook in the supply situation adds to the complex nature of the problem. Already, however, influential men in the cotton trade are talking of 20-cent cotton for the current season. This talk is important in that there are many of those doing the talking and that continued unfavorable climatic conditions enable the long interest to stand pat.

MAKING FARMING PAY

EVERY farmer hopes to make a profit as the result of his labors. He toils early and late and spares no trouble to see that his crops are properly planted and harvested. His stock requires constant attention, and, taking it altogether, he has few spare minutes.

Most of the farmers in our community are prosperous. Our market is a good one, while there are certain things to be desired, and we all reap our share of the results to our advantage.

There is one benefit which the farmer receives from his labors that we do not share in but in the making of which we all have a hand. That is the added value of his holdings as they grow in desirability and as the demand for land in our neighborhood increases.

Because increased land values come as the result of conditions which afford additional opportunities of profitable crop raising, not the least of which is the market which permits of a quick and desirable sale. Naturally there can be no need of a market if there is nothing to sell, nor can there be a profitable sale unless there is the right market.

So the increase in the value of the farm comes with the better market conditions, the farmer finding better prices as the market becomes more popular and the market becoming more popular with the number of farmers.

THOSE WHO HELP TO MAKE THE MARKET BETTER ARE ENTITLED TO THE THANKS AND GOOD WILL OF THE FARMER. We all try our best to bring about such a condition and in this way we help to make farming pay.

As a result of our efforts to help the farmer we expect him to do something in return. And when the thought is carefully analyzed it will be seen that we are actually asking him only to help himself even more than he will be helping us, by doing that which we ask.

We ask the farmer to buy his merchandise at home instead of sending to the big mail order houses for his goods. We believe that he can buy at home just as advantageously as to send his orders out of town and that he will be even better satisfied with his merchandise if he buys of our local storekeepers. But the main point is this: We need all of the money in town. We need it for the purposes of business and we need the business that he is accustomed to send away to the mail order houses.

We want to stop their encroachments on local trade. We want to encourage local business men to provide stocks suitable and sufficient for local consumption, but if we send away for the goods we need, then the local business men will become discouraged and decline to invest their money and credit in stocks for our town.

In order to help himself the farmer must help the local merchant. It is only by such reciprocal conditions that a community can become prosperous and grow into a bigger community. And it is only by the fact that a farm is located in proximity to a good market that the farm will become more valuable.

Even if a farmer can make a profit on the buying of certain goods from a mail order house, in the end it will mean that he has helped to stultify his home market, which tends to keep down land values. A DULL MARKET NEVER MADE A BIG TOWN.

In this, we can all help and we are trying to help. The farmers who send their orders to the mail order houses do not think of the effect which their acts have on the community. They do not realize that they are helping to create a sentiment which cannot but injure the financial condition of our home town; a sentiment which interferes with the growth of the community and with the prosperity of every owner of land.

So, to make farming pay, in both the direct and the indirect way, stand by the townspeople and help local business conditions. Every farmer has a share and an interest in his home town. He is as much affected by the prevailing conditions in the town as he is by the conditions on his own farm. THE TOWN CANNOT HAVE PROSPERITY WITHOUT HIS CO-OPERATION AND HE CANNOT LOOK FOR PROSPERITY IF HE DOES NOT LIVE IN A PROSPEROUS COMMUNITY.

Any man can injure his community by failing to co-operate with those whose interests are similar to his own. Short-sightedness may make a man believe that he is not included in this general rule, but few can successfully evade its application.

Make farming pay by helping to "boost" your home town. Do your business with our local storekeepers. You will prosper more in the long run. BUY YOUR MERCHANDISE AT HOME.

R. L. BRADLEY

TEMPORARY DELAY IN COUNTY ROAD WORK.

The County Engineer, County Attorney and myself, as a committee, called on Rodman Wiley, State Road Commissioner at Frankfort, last week, concerning the construction of the State Road between Hickman and Fulton. We thought it best to discuss in detail this proposed work, and ascertain just what he requires to be done, so there would be no difficulty in getting pay from the State of one half the cost of said road when completed. The order for this road work was made by the Fiscal Court under the direction of Mr. Terrell, who was succeeded on July 1st this year by Rodman Wiley, who is present Road Commissioner. Mr. Terrell had told us that the State would pay one half the cost of making survey etc., which Mr. Wiley agreed would be done by him.

Mr. Wiley told us that we could not advertise for bids on this work until the plans and estimates were approved by his department, and since we had already advertised, we would be required to wait until these plans were submitted to him by the County Road Engineer, and approved by him which cannot be done for at least one week as Mr. Kelly has not completed the estimates of the entire survey. Mr. Wiley requires the surveys and estimates to be submitted to him as a whole for his approval, and then the County Court Clerk will be required to advertise for bids at least two weeks before the letting of contracts by the Fiscal Court. He also told us that they had allotted us only \$8,700.00 and of course we will be required to spend an equal amount, or in other words they will expend as much as the county does up to said amount. However Mr. Kelley and the other engineer are of the opinion that the proposed road will not cost more than \$15,000, hence enough to build said road.

The reason the Clerk had advertised for bids on said road to be received by Fiscal Court on the 17th of this month, was simply upon my suggestion to enable us to get to work earlier, as the law requires us to advertise for not less than two weeks before letting contracts, and I thought that as Mr. Kelly only had a few more days work necessary to get these maps and estimates finished and approved, by State Commissioner, that they would be returned to this office several days before the day and date set to receive bids and in time for all who desired to inspect same before submitting bids, and that we could fix the 17th as date to receive bids and get this work started so it could be completed before the fall rains begin.

Since the State Road Commissioner requires the plans and maps, etc. to be submitted to him as a whole for his approval, and since Mr. Kelly has not completed the estimates on said job, and will not have done so under 8 or 10 days, so they can be submitted to Mr. Wiley, we cannot begin advertising until this had been done, and therefore the advertisement already made becomes a nullity.

It seems that the delay on this work to a great extent was caused by the weather conditions and no one to be blamed. I should very much like to have this road completed within the next 30 days so it could settle before fall and winter, as winter rains are likely to make this a very bad road. I reminded Mr. Wiley of this and he said if it were properly dragged this fall and winter, the mud would be eliminated.

I am sure that every one is anxious to get this road built but we cannot go any faster than Road Commissioner Wiley will permit, as we are looking to him for one half cost, and must necessarily co-operate with him, and work in absolutely harmony with his ideas and requirements, or suffer great delays and disappointments when he settles with us—E. J. Stahr, County Judge.

HANDLING U. S. MAIL IMMENSE UNDERTAKING.

The people who see mail bags loaded on postal cars from the mail wagons or see them thrown off, can form no idea of the immensity of this branch of the public service. Statistics and tales of figures may have little interest for the ordinary reader, but when it is stated that the total number of mail bags used for transporting the mails amount to about five millions, and if placed end to end would stretch from Boston to San Francisco and extend into the Pacific ocean, some estimate may be formed of the tremendous mass of such equipment needed in the dispatch of public business.

At the beginning of this administration an inventory was taken to learn what equipment for railway postal transportation the government had on hand. It was discovered that the grand total of such property was 3,549,489 pieces, of which 468,846 were mail pouches, 2,592,479 were sacks, and 488,164 were mail locks. Since this inventory was made the growth of the service required the purchase of over 1 million and a half mail bags to meet the steadily increasing demand.

The money required from time to time for the purchase of this great supply and the price to be paid, so as to come within the appropriation, were matters of grave concern to those in charge. In the summer of 1913, the Department was paying \$1.44 for its ordinary mail pouches. This price was deemed too high, and experts were set to work to devise something which would be of equal capacity, equal durability, at a less cost. The result was that a pouch was designed which the Department contracted for and purchased for less than 60 cents each, and this pouch has been produced in large quantities and is replacing those formerly under contract. Experts were also placed on the proposition of designing a cheaper but equally effective pouch for the exchange of mails by moving trains. The Department was then paying \$1.70 for these catcher pouches. Within a short time a pouch was evolved, designed on scientific principles, which is giving far better service and at a greatly reduced cost, viz., 80 cents each.

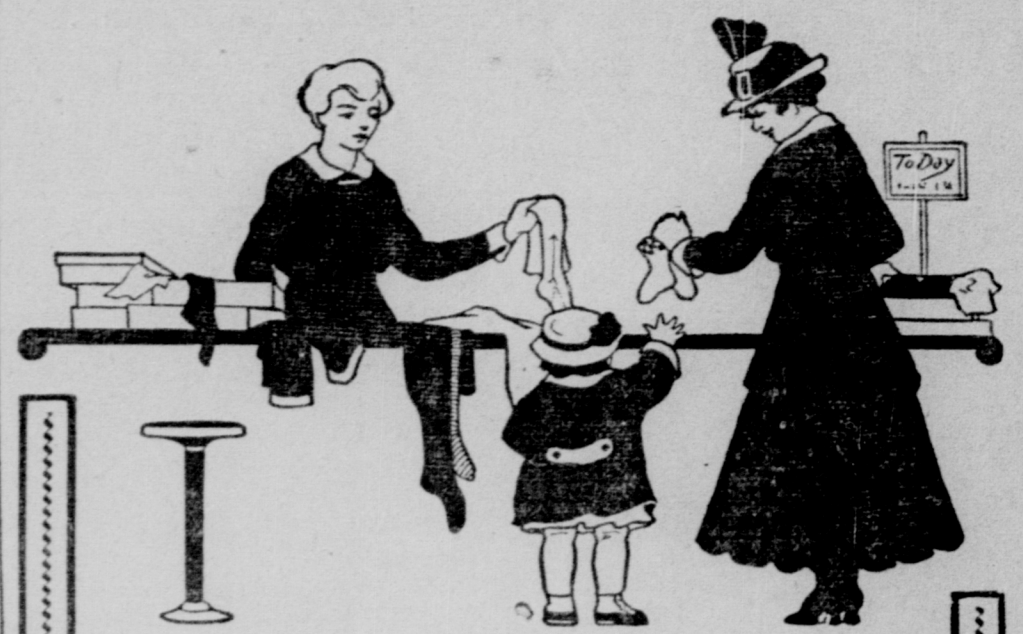

The repair and proper maintenance of mail bags is provided for in an establishment located at Washington.

One of the difficulties connected with this repairing process, which was also something of a hardship to the operators, was the accumulated dirt and dust which attached to these bags when returned from the service and which was a menace to the health of those so employed. No attention had ever been paid to the dangerous and unsanitary conditions under which this work was done. A system was finally adopted consisting of large tumbling barrels, each having a capacity for holding several hundred bags. Driven rapidly by electric power, the dust confined to a tightly constructed room and carried off by blowers and lodged in immense canvass receptacles, resembling a dirigible balloon when inflated, this process was found thoroughly suitable. For careful tests showed that all dust was completely removed. Four thousand a day are now treated by this process.

The life of a mail bag is about six years, but the rough usage to which it is exposed renders many of them unfit for repair. Such bags pass into the hands of expert inspectors who utilize such parts as still have some good material left in making what is known as "pieced bags." The bags or part of bags which can not be utilized are sold under yearly contract to the highest bidder. The amount thus realized and turned into the treasury for the past year was over \$10,000.

CALOMEL? HORRIBLE! EVER SALIVATED BY

Calomel Is Quicksilver and Acts
Like Dynamite on Your Liver.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for 50 cents a large bottle of Dodson's Liver Tonic, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tonic straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe. Adv.

BABY GIRL DIES.

On Monday evening, July 31, the death angel visited the home of J. E. Nelson and wife, and took from their midst their baby girl, Esther May Marguerite, age 2 years and 29 days.

Death was caused from whooping cough and pneumonia, after about five weeks illness.

Funeral services were held at the residence by Rev. Spence, pastor of the West Hickman Methodist church, after which the little form was laid tenderly to rest by loving hands at the city cemetery.

W. S. (Simp) Seat, of Crutchfield, we understand, has been appointed as guard at the penitentiary at Frankfort.

MRS. WILLIAMS DEAD.

Mrs. Robert Williams, age about 55 years, died at the home of her daughter, Mrs. Joe Fields, Monday, at 3 p. m., death being the result of an attack of acute indigestion, after the deceased had eaten a few grapes. Mrs. Williams was a resident of the Walnut Log section, and made her home with her father, Mr. Johnson. She is survived by two daughters and a small son. Burial at Crescent graveyard.

BIDS WANTED.

The Hickman Board of Education solicits sealed bids on the erection of a four-room brick high school building, to be erected at Hickman, Ky.

Plans and specifications may be seen at the office of the Secretary of the Board.

A certified check for \$25.00 must accompany each bid. The Board reserves the right to reject any and all bids.

Bids will be opened August 25th, 1916.

FINE FARM FOR SALE.

We are offering our farm in Fulton, County, Kentucky, known as the W. L. Alexander old home place, situated on the old Moscow and Troy road at the intersection of the Shuck road two and one-half miles northwest of Jordan, three miles from Cayce, nine miles from Hickman and eight miles from Union City. It contains 166 acres, all under fence and in a high state of cultivation. It has a good comfortable dwelling, a two-room tenant house, a good barn and out houses. Has a tubular well of splendid ever-lasting water. It is situated in a first class community and is a very desirable home. We are anxious to sell the farm at once. For particulars call on or write W. L. Alexander, Union City, Tenn.—W. L. and J. A. Alexander.

Mrs. Lon Naylor and daughter, Dorothy, left Saturday by boat for Caruthersville, Mo., and Jonesboro, Ark., to visit relatives.

Misses Nell and Victoria Bonduant and Bertie May Rice left Tuesday for Dawson Springs to spend a few days.

Albert Roper comes in as No. 2 in the purchase of a farm tractor. We failed to learn what kind he bought.

FOR SALE: Good, gentle family horse, cheap.—E. B. Prather.

DIED AT AGE OF 93.

"Auntie" Ellen Bussey, colored, age 93 years, died at her home in this city, Aug. 2nd, of malaria and old age. Aunt Ellen came to this county from Louisville in 1843, being owned at the time by the father of Judge J. W. Cowgill, and of course "nursed" Judge in his infancy. In point of citizenship and continuous residence she was doubtless the oldest in Fulton county.

Miss Carmen Crawford has returned from a visit to friends at Charleston, Sikeston, East Prairie and Cape Girardeau. She also enjoyed a camping trip at Bruer's Lake.

R. V. Putnam and C. B. Parrish were able to be down town Monday after being laid up for several days.

We like to boost Lemolae because it is a medicine or merit.

LITTLE DAUGHTER DIES.

Mary Louise, the little one year old daughter of Mr. and Mrs. Will Barnes, died at their home in the Henry Addition at an early hour Tuesday. Whooping cough is given as the cause of death. The little form was laid to rest at Brownsville cemetery.

When the baby is suffering the double affliction of hot weather and bowel disorders, the remedy needed is McGEES BABY ELIXIR. It reduces the feverish condition, corrects the stomach and checks looseness of the bowels. Price 25c and 50c per bottle. Sold by Hickman Drug Co. Ad.

A fine 7½ pound boy arrived at the home of Mr. and Mrs. Erle Johnson Saturday night.

Judge Elvis Stahr spent the latter part of the week at Frankfort on business.

This time next year we'll know who's who in county politics.

INCORPORATED

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

THE FARM TELEPHONE.

A few years ago, few farmers in this section did not enjoy the benefits of a telephone, but by persistent effort against great odds and various difficulties, Manager A. W. Davis, of the Hickman Independent Tele. Co., has during the past five years linked the homes of the western end of the county into one big system of modern communication.

Few things add more to the comfort or do more for the protection of the farmer than a telephone connection. It goes far to destroy the isolation of the farmer and his family. It brings the doctor within easy call. It brings the neighbor in close connection for social pleasures or for any needed assistance.

The new inventions—the telephone, the automobile, the electric cars, the new express companies and farm co-operation—are all doing something to add to the attractiveness of farm life; but unless you participate in the farm movements and unless you connect yourself by the telephone and with the outside world, you shut yourself out from the greater part of these benefits.

If you have not gotten a telephone, get it now and you will find that it is not so much a luxury as it is a necessity, which pays for itself over and over again.

THIS IS A PROGRESSIVE AGE

New discoveries are constantly being made that benefit humanity more or less according to the necessity or demand for an improvement over old methods.

On account of the dangerous, as well as unpleasant, after-effects of Calomel, men of science have been patiently searching for a substitute for it.

Calomel acts too violently on your liver, causes you to lose time from your work, and is liable at any time to salivate you. Science has at last discovered a substitute for Calomel which is called Lemolae.

You will find Lemolae a real liver medicine that possesses the virtues of Calomel without its unpleasant and often dangerous after-effects.

Lemolae is pleasant to take, and it does not salivate, is certain to fill a long felt want. Try a bottle at our risk.—Helm & Ellison Drug Store.

P. S.—If you forget the name spell Calomel backward. Advt.

HUSBAND SAVED HIS WIFE

Stopped Most Terrible Suffering by Getting Her Lydia E. Pinkham's Vegetable Compound.

Denison, Texas.—"After my little girl was born two years ago I began suffering with female trouble and could hardly do my work. I was very nervous but just kept dragging on until last summer when I got where I could not do my work. I would have a chill every day and hot flashes and dizzy spells and my head would almost burst. I got where I was almost a walking skeleton and life was a burden to me until one day my husband's step-sister told me that if he did not do something for me I would not last long and told him to get your medicine. So he got Lydia E. Pinkham's Vegetable Compound for me, and after taking the first three doses I began to improve. I continued its use, and I have never had any female trouble since. I feel that I owe my life to you and your remedies. They did for me what doctors could not do and I will always praise it wherever I go."—Mrs. G. O. LOWERY, 419 W. Monterey Street, Denison, Texas.

If you are suffering from any form of female ills, get a bottle of Lydia E. Pinkham's Vegetable Compound, and commence the treatment without delay.

MAYFIELD FOLLOWS SUIT.

The city of Mayfield will have a motor truck for the fire department within the latter part of next week. The city council decided Wednesday to purchase a new machine of the American-LaFrance make, and it will be shipped from Chicago this week. The truck is 40-horsepower, fully equipped and with the latest improvements and attachments necessary to make an ideal truck for a town the size of Mayfield. The cost is \$3000 f. o. b. Mayfield. It has a forty-gallon chemical apparatus and 200 feet of chemical hose and several hand-extinguishers.—Mayfield Messenger.

In this instance, Hickman is ahead of Mayfield, as we have a \$5,400 machine with water-pumping facilities.

HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Catron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good. I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without its tiring me, and am doing my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 30 years of wonderful success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

Not counting in Bulgaria and Turkey, the nations of Europe at war have contracted debts during its two years duration totaling approximately \$43,000,000,000. The total population of the six nations concerned before the war was 408,500,000 and their aggregate debt at that time was \$26,190,000,000 or \$64 a person. The debt has thus been almost doubled within two years for war purpose exclusively, and their grand total of debt now stands at about \$167 per capita. This is exclusive of local public debt. The net public debt of the American people, inclusive of municipal debt, is about \$50 per capita.

I am prepared to make loans on improved farm lands at a low rate of interest in the counties mentioned in the margin of this advertisement in sums of \$3,000.00 or more on five, ten, fifteen or twenty years' time. About half the value will be loaned on desirable property. All or any part of a loan may be paid on any interest paying day, interest being stopped on partial payments made. If you are in need of a farm loan call to see me, or write me a letter and I will call to see you.
